EXPERIENCE

React Developer

Arabcoderz

📅 June 2022 – Dec 2022   📍 Cairo, Egypt

- Developed **www.darispace.com**, a real estate platform with estate listings, user profiles, and Google Maps integration. Utilized Redux for state management and efficient data caching.
- Created medtech-app, a medical device brokerage and maintenance.
- Enhanced a company dashboard by implementing dark mode, bilingual (Arabic-English) support using i18next, and ensured scalability for future sections. Adapted the dashboard to manage four web and mobile apps
- Tech Stack: React, Redux, Tailwind CSS, Firebase, Google Maps.

Vue Developer

Saluslab

📅 Mar 2022 - June 2022   📍 Dubai, Emirates

- Improved routing and styling system while maintaining the dashboard.
- Participated in adding the ticket systems monitoring board to the system.
- Tech Stack: Vue, Vuex, Vue Bootstrap.

Frontend Intern

robot-valley

📅 July 2020 – Oct 2020   📍 Cairo, Egypt

- Contributed to the development of new features and enhancements for the inventory management system.

PROJECTS

Twitter-Like Social Network

Graduation Project - Excellent

- Managed user profile editing and tweet rendering, streamlining the handling of various states of tweet.
- Implemented an optimistic feedback feature to enhance user experience and efficiently managed global state. **github link**
- Tech Stack: React, GraphQL, TypeScript, Apollo Client, S3-Bucket.

Search Academy

- Crafted vital UI pages for the website, elevating the overall aesthetics and performance, including the landing page, team section, blog.
- Enhanced overall SEO and ranking.

OS Simulator

- Built a task scheduler simulator that implements algorithms like First Come First Serve, Shortest Job First, Round Robin, and Priority.
- Built a memory management simulator that implements algorithms like First Fit and Best Fit.
- Tech Stack: C++, Qt, QML, JavaScript.

EDUCATION

B.Sc in Computer Engineering

Ain Shams University

📅 July 2021

Very Good with Honors

SKILLS

- Frontend

  React   React Native   GraphQL   Apollo Client   Vue   VueX   Redux-Toolkit   Tailwind CSS   Firebase   HTML   CSS   Bootstrap

- Backend

  NodeJS   Express   SQL   MongoDB

- Programming Language

  Javascript   Typescript   C++   Java   Python

- Other Knowledge

  Git   Github   Algorithms   Data Structures   OOP   Linux   Maps Api

ACTIVITIES

React Native Course (Orange Digital Center)

Built a route finder using Google Maps API, a notes app with SQLite, and completed a Grocery e-market app as the final project. **github link**

Web Designer at Sefrwahed

Improved website development by enhancing the Hackathon registration system for better user-friendliness, allowing users to specify the number of registrations for each team.

Web Designer at APEC

Developed a profile system and PST test. Transformed the APEC website into a SPA, achieving a 300% faster loading speed.
